

GeoControl Systems, Inc.

The Preferred HUBZone Provider of Superior Technical Services

Company Description

Headquartered in Houston, Texas, GCS is recognized by the engineering and administrative support services it provides to NASA and its prime aerospace contractors. Incorporated in April 1984, the company is celebrating its 31st year. The size of the company's employee group ranks it nationally among the largest HUBZone firms with Engineering Services as the primary service offering.

Company Values

GCS' core values are integrity, diversity and inclusion, creating value for customers, and commitment to community service.

Corporate HUBZone Initiative

➤ The SBA Historically Underutilized Business Zones (HUBZone) program is designed to rebuild disadvantaged communities by encouraging:

- Capital Investment
- Job Creation

➤ GCS employs a diverse workforce and positively impacts the lives of our HUBZone-resident employees

➤ GCS has successfully recruited qualified HUBZone residents for a variety of administrative, technical and engineering positions.

➤ GCS has entered into agreements with community-based organizations and other HUBZone small businesses to revitalize the communities in which we live and work
